

UltraStand

Unique: the thinnest and lightest notebook stand

Made-to-measure: fits every type of laptop (if desired also tailored to docking stations).

Ergonomic: laptop screen always at the right height

Convenience: create a mobile workstation in no time at all

Portable: acts as second skin to one's laptop, so very portable

Research

Recent scientific studies in the Netherlands and Sweden have shown that working with a BakkerElkhuizen notebook stand in combination with an external keyboard results in: 17% increased productivity, 21% increased comfort and 32% decreased neck torque (Lindblad 2003).

Weight: 250 g
Product code: BNEUS**

- 1. Mobile workstation
- 2. Ergonomic set
- 3. Made-to-measure

Health & Safety Regulations

By European legislation, employers are obliged to take proper measurements to prevent physical discomfort among their employees. Separate from the screen the keyboard needs to have the ability to both tilt and move freely to allow a comfortable working position thus avoiding fatigue in the arms and hands. In addition one must be able to increase the height of the screen by placing a support underneath the monitor. The document holder should be stable, adjustable, and positioned so as to minimize uncomfortable head and eye movements. These guidelines do not only apply to desktop computers but also to laptop computer stations.
